GRADUATE EDUCATION: University of Khartoum, SUDAN
RESEARCH INTERESTS: Wildlife Ecology & Human Dimensions of Wildlife
Majango plans to gain technical, managerial, and intellectual leadership skills to manage wildlife intervention and guide agricultural sector growth in the republic of South Sudan.

PERSONAL STATEMENT:
Majango’s educational goals are to improve teaching, curriculum review, research skills, and facilitate the community to participate in wildlife conservation and management in South Sudan. He has served on Technical Committees for reviewing the Government Policy and Law Documents in the Wildlife Sector, Tourism Sector, and Environment Sector. Majango started his career as a wildlife professional during his undergraduate education. After graduation, he served as Wildlife Officer for 11 years, during which he participated in regional and international activities, including the Sahelo-Saharan Antelopes Workshop and the CITES 41st Standing Committee Meeting held in Geneva-Switzerland.
In his spare time, Majango enjoys spending time with family, attending group meetings, working in backyard plantations, traveling, outdoor activities, and attending professional club activities, social, and community gatherings.
